

# Configuration guide wireless network Eduroam for Android

Instructions may differ according to different device implementations or firmware versions.

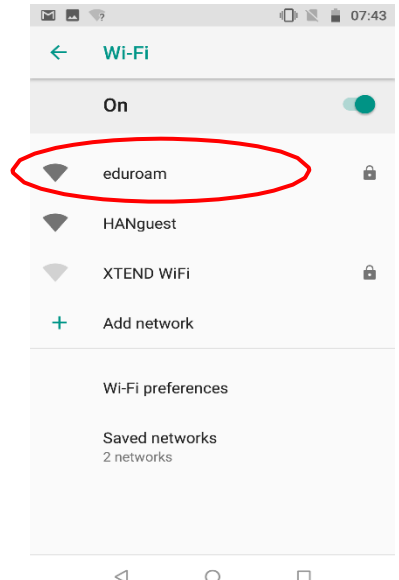

1. Select 'Settings' then select 'Network & Internet'.

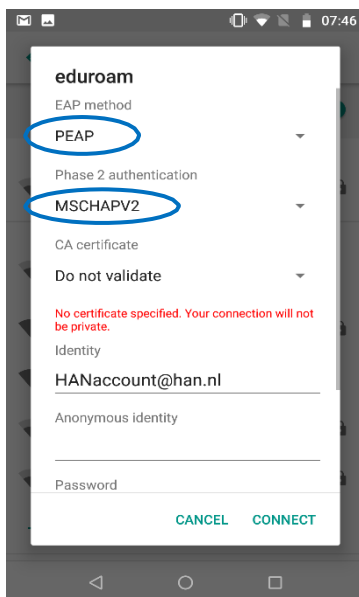

2. Select 'Wi-Fi'.

3. Under Wi-Fi settings select 'eduroam'.

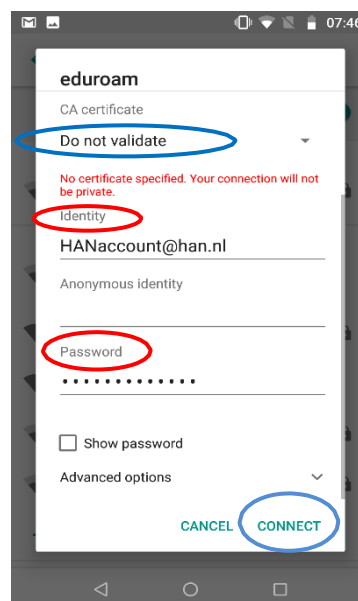

4. Slide screen upwards. Choose 'PEAP' as *EAP Method* and for '*Phase 2 authentication*' MSCHAPV2

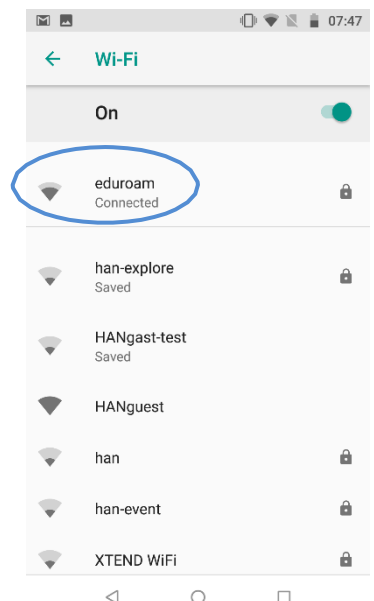

5. Slide screen down. Choose for *CA certificate* 'Do not validate'. In the *Identity* field enter your '**HANaccount@han.nl**' (e.g. abcxyz@han.nl).

*Password* enter your 'han-password' Tap 'Connect'.

6. Ready if it says 'Connected'. Enjoy.
